*Before proceeding, please use a ruler to confirm the printed size. Measure the test bar to ensure that the measurement is 2cm. Take a current ring that correctly fits your finger and lay it over the different size circles. To get the right size, find the ring circle that closely matches the inner edge of your ring. When in doubt between 2 ring sizes, we advise you to choose the bigger one. Need help? Don't hesitate to write us at [info@uniqueeden.com](mailto:info@uniqueeden.com).*
